

## Correct Answers:

### Activity #8.2 – Identify your Teams

Follow the steps below to identify the teams that you already participate in:

1. Think of the teams that you participated in during last month and make a list of them. You may be surprised by realizing how many teams you belong to.
2. Then, present this list to your classmates (if online, write the list on the space provided).
3. Do you spot any common teams with your classmates?
4. For those teams that other students also participate in, write individually the reason why you belong to them.
5. Then, compare your reasons with those of others. Feel free to discuss with your classmates about the common teams, their value, and your reasons for participating.
